

## Running Reports: Comparing Data from Different Evaluations

**Use this guide to generate a report if:**

1. You are comparing data from different evaluations.
2. You are comparing data from different organizations.

The image below shows an example of a percentages report, displaying data from two questions in two evaluations.

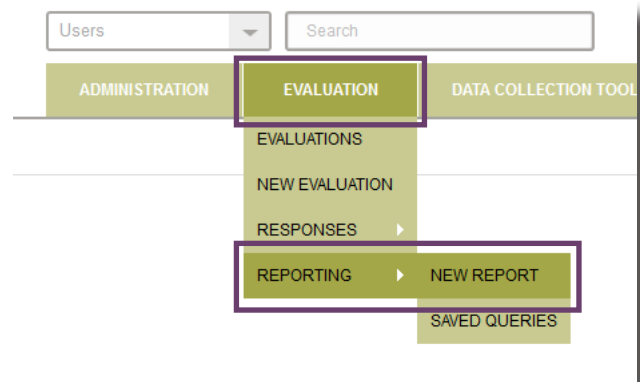

Export ▾

Date Collected ▾	Year ▾	Month ▾	Response No ▾	Organization ▾	Location Type ▾	Information Source ▾							
Number of Responses							Percentage (%)		Group Name ▾		Evaluation ▾ ▾	Tool ▾ ▾	Question ▾ ▾
Question ▾ ▾							Question Options ▾ ▾						

To run this type of report, you'll use **More Reporting Options**.

## Accessing More Reporting Options

- Log in to SMDS.
- Place your cursor over the **Evaluation**.
- Place your cursor over the **Reporting**.
- Click the **New Report**.

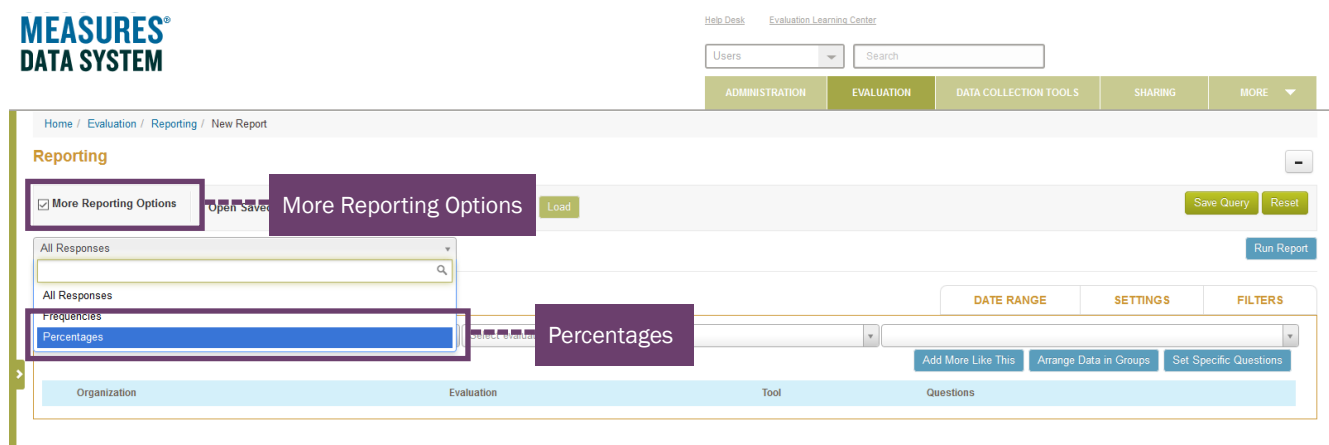

## Select the Report Type

- Click the **More Reporting Options** check box.

The next tab defaults to an **All Responses** report.

- Click the tab to change the report type.
- Click the **Percentages** option from the drop-down list.

**TIP:** In this guide, we will run a Percentages report which shows both percentages and frequencies. You can also run a Frequencies report to only show frequencies.

## Selecting the Data Sets

Your organization name will be displayed in the first box.

- Click the **Select evaluation** dropdown arrow and select an evaluation
- Click the **Select tool** dropdown and select a tool.

The first screenshot shows a dropdown menu labeled 'Your Organization Name' with the text 'Neighborhood Housing Services of My Town' selected. The second screenshot shows a dropdown menu labeled 'Select Evaluation' with a list of evaluations including 'Community Evaluation, Phase I', 'CIM Evaluation Phase 2 2017: Building Conditions', 'CIM Evaluation Phase 2 2017: Survey', 'Community Evaluation, Phase II', 'Community Gardening with Neighbors 2016', 'Elissa Test', 'Eva: CIM-Block Conditions v1.0', and 'Family Housing Pilot Program Time 1'. The third screenshot shows a dropdown menu labeled 'Select Tool' with a list of tools including 'Building Conditions v1.0' and 'Resident Experience in the Community v1.0'.

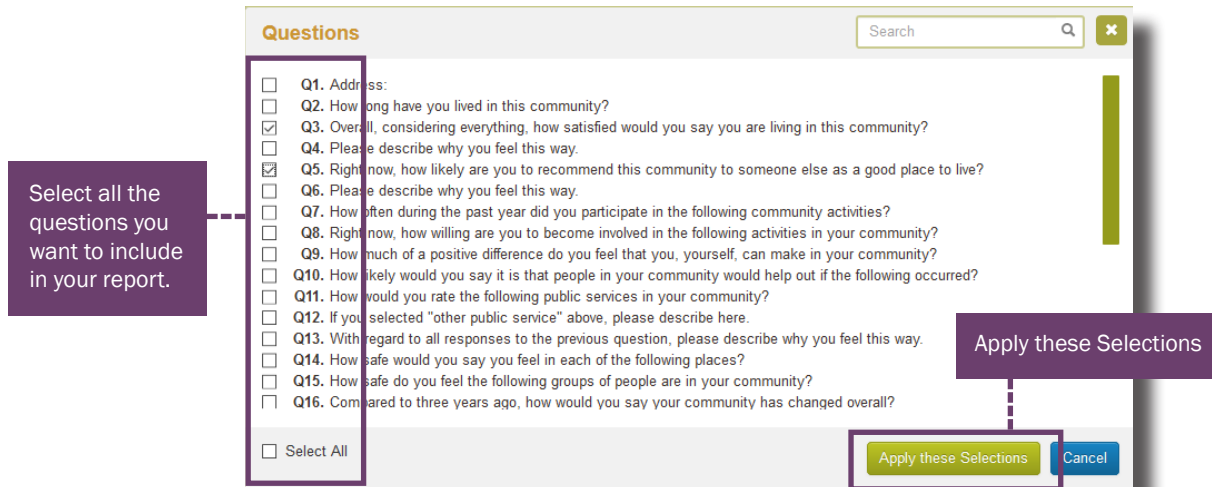

- Click the **Set Specific Questions** button.

The screenshot shows the main interface with a 'DATA SETS' section. The 'Organization' dropdown is set to 'Neighborhood Housing Services of My Town', the 'Evaluation' dropdown is set to 'Community Evaluation, Phase I', and the 'Tool' dropdown is set to 'Resident Experience in the Community v1.0'. The 'Set Specific Questions' button is highlighted with a red box. The interface also includes a 'PERCENTAGES' dropdown, 'DATE RANGE', 'SETTINGS', and 'FILTERS' tabs, and buttons for 'Add More Like This', 'Arrange Data in Groups', and 'Set Specific Questions'.

## Selecting the Data Set Questions

A dialogue box will appear, showing all questions in the tool.

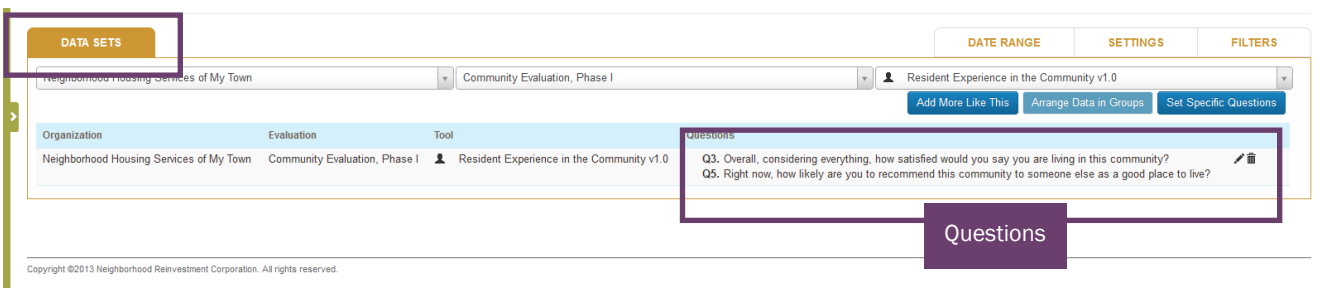

- Click the checkbox to the left of each question you want in your report.
- Click the **Apply these Selections** button.

**TIP:** In this guide, we are using only multiple choice questions as examples. You can use these same instructions for any type of question from your tool, except open-ended questions.

Select only a few questions at a time to keep your report manageable. A matrix question should have its own separate report.

After you select the questions you want to display, the **Data Sets** tab displays your selected questions.

Once you have set the questions from your first evaluation and they appear in the Data Set area...

- **Repeat these steps to select the second evaluation, tool, and same questions.** These will appear in the Data Set area below your first evaluation.

These will appear in the Data Set area below your first evaluation.

The screenshot shows the 'DATA SETS' interface. At the top, there are tabs for 'DATE RANGE', 'SETTINGS', and 'FILTERS'. Below these are three dropdown menus: 'Neighborhood Housing Services of My Town', 'Community Evaluation, Phase II', and 'Resident Experience in the Community v1.0'. To the right of these are three buttons: 'Add More Like This', 'Arrange Data in Groups', and 'Set Specific Questions'. The main area is a table with the following columns: Organization, Evaluation, Tool, and Questions. It contains two rows of data, both for 'Neighborhood Housing Services of My Town' and 'Community Evaluation, Phase II', using the 'Resident Experience in the Community v1.0' tool. The questions listed are: 'Q3. Overall, considering everything, how satisfied would you say you are living in this community?', 'Q5. Right now, how likely are you to recommend this community to someone else as a good place to live?', and 'Q5. Right now, how likely are you to recommend this community to someone else as a good place to live?'. Each row has a pencil icon to the right of the questions.

Organization	Evaluation	Tool	Questions
Neighborhood Housing Services of My Town	Community Evaluation, Phase I	Resident Experience in the Community v1.0	Q3. Overall, considering everything, how satisfied would you say you are living in this community? Q5. Right now, how likely are you to recommend this community to someone else as a good place to live?
Neighborhood Housing Services of My Town	Community Evaluation, Phase II	Resident Experience in the Community v1.0	Q3. Overall, considering everything, how satisfied would you say you are living in this community? Q5. Right now, how likely are you to recommend this community to someone else as a good place to live?

**TIP:** You can review the two sets of questions to ensure they match up, and decide if you are ready to run the report or if you want to make any edits.

## Editing Data Sets

You may want to edit your data set before or after generating a report to add or remove questions.

- Click the **Pencil icon** to the right of the questions. 

This screenshot is identical to the one above, but with a purple box highlighting the pencil icon to the right of the questions in the second row of the table.

Organization	Evaluation	Tool	Questions
Neighborhood Housing Services of My Town	Community Evaluation, Phase I	Resident Experience in the Community v1.0	Q3. Overall, considering everything, how satisfied would you say you are living in this community? Q5. Right now, how likely are you to recommend this community to someone else as a good place to live?
Neighborhood Housing Services of My Town	Community Evaluation, Phase II	Resident Experience in the Community v1.0	Q3. Overall, considering everything, how satisfied would you say you are living in this community? Q5. Right now, how likely are you to recommend this community to someone else as a good place to live?

- Click on **Set Specific Questions**.

The screenshot shows the top navigation bar with 'More Reporting Options', 'Open Saved Queries', and a 'Select query...' dropdown. Below this is a 'Percentages' dropdown and a 'Run Report' button. The main content area has tabs for 'DATA SETS', 'DATE RANGE', 'SETTINGS', and 'FILTERS'. Under 'DATA SETS', there are three data sets: 'Neighborhood Housing Services of My Town', 'Community Evaluation, Phase I', and 'Resident Experience in the Community v1.0'. The 'Set Specific Questions' button is highlighted with a red box.

- Change your selection of questions by checking or unchecking the box by specific questions, click **Apply these Selections**.

The 'Questions' dialog box is shown with a search bar and a list of 16 questions. A red box highlights the first five questions, and a callout box says 'Select all the questions you want to include in your report.' The 'Apply these Selections' button is highlighted with a red box, and a callout box says 'Apply these Selections'.

**TIP: If you are comparing data from two evaluations and change one data set, be sure to change the second one as well.**

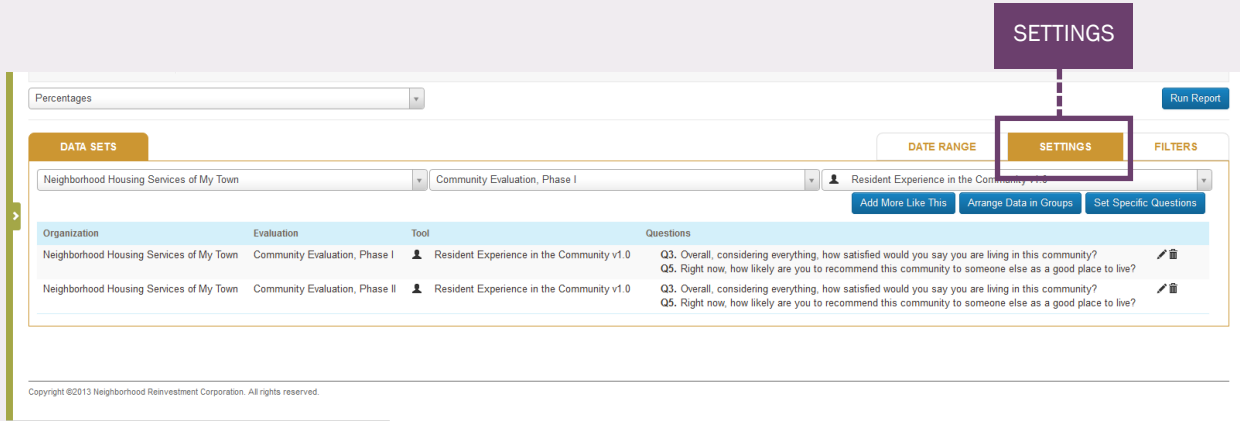

- To save your new selection of questions, click **Save Data Set**.

The screenshot shows the 'DATA SETS' tab with the 'Save Data Set' button highlighted with a red box. The 'Save Data Set' button is located below the 'Neighborhood Housing Services of My Town' data set.

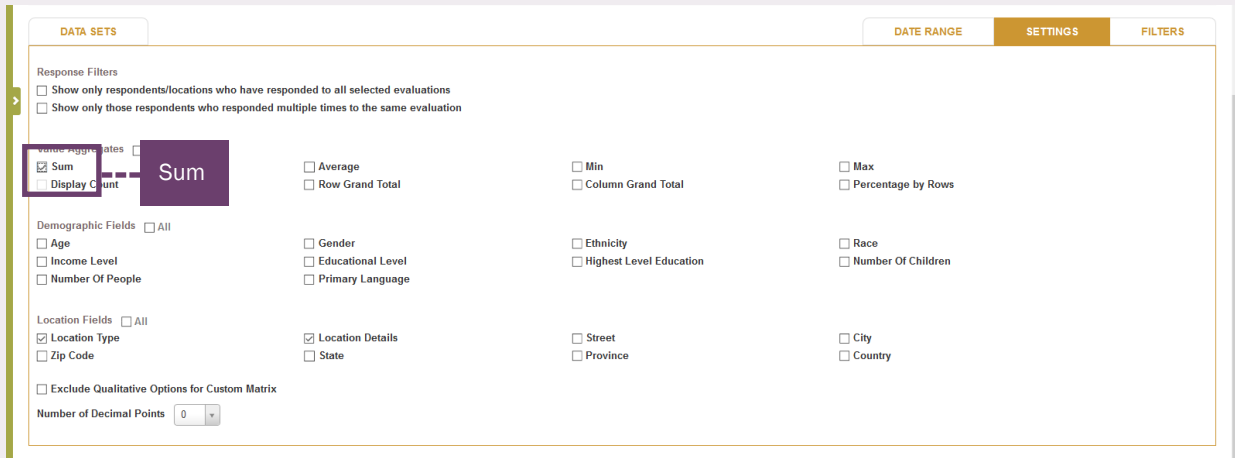

**\*OPTIONAL\***

You might want to show the total number of responses for each question.

- To display this, go to the **Settings** tab.

- Then click the **Sum** check-box.

## Running the Report

- Click the **Run Report** button to generate your report.

## Filtering Answer Choices

The Filter tab allows you to sort your report based on answers to questions. In the example below, if someone chose “Very satisfied” or “Somewhat satisfied” in Question 3, you can then see how they responded to Question 5.

**TIP: If you are using the filter option, uncheck the Sum box and re-run the report.**

- Click the **Filters** tab.

The screenshot shows the Success Measures interface with the **FILTERS** tab selected. A purple box highlights the **FILTERS** tab in the top navigation bar. Below the navigation bar, the **DATA SETS** section shows the selected data set: "Neighborhood Housing Services of My Town" and "Community Evaluation, Phase I". The **DATE RANGE** and **SETTINGS** tabs are also visible. The **QUESTIONS** section displays two questions: "Q3. Overall, considering everything, how satisfied would you say you are living in this community?" and "Q5. Right now, how likely are you to recommend this community to someone else as a good place to live?". The **Export** button is located below the questions. The **Filter** section at the bottom shows the selected filter: "Date Collected" with a dropdown menu for "Year" and "Month". The "Response No" and "Organization" dropdowns are also visible. The "Group Name", "Evaluation", "Tool", and "Question" dropdowns are also present.

All possible answer choices are displayed on this tab.

The screenshot shows the Success Measures interface with the **FILTERS** tab selected. A purple box highlights the **FILTERS** tab in the top navigation bar. Below the navigation bar, the **DATA SETS** section shows the selected data set: "Community Evaluation, Phase I | Resident Experience in the Community v1.0". The **DATE RANGE** and **SETTINGS** tabs are also visible. The **QUESTIONS** section displays two questions: "Q3. Overall, considering everything, how satisfied would you say you are living in this community?" and "Q5. Right now, how likely are you to recommend this community to someone else as a good place to live?". The **Filter** section at the bottom shows the selected filter: "Date Collected" with a dropdown menu for "Year" and "Month". The "Response No" and "Organization" dropdowns are also visible. The "Group Name", "Evaluation", "Tool", and "Question" dropdowns are also present. The **Apply Filter** button is located at the bottom right of the filter section.

For this example, we want to see how people who responded “Very satisfied” or “Somewhat satisfied” to Question 3 then responded to Question 5.

- Click the **Check/Uncheck All** for the question you want to filter so you uncheck all answer options.

Community Evaluation, Phase I | Resident Experience in the Community v1.0

Q3. Overall, considering everything, how satisfied would you say you are living in this community?

☐ Very satisfied  
☐ Somewhat satisfied  
☐ Somewhat dissatisfied  
☐ Very dissatisfied  
[Check/Uncheck All](#)

Q5. Right now, how likely are you to recommend this community to someone else as a good place to live?

☒ Definitely would recommend

- Check the answer choice(s) you want to filter in your report.

Here, we check the boxes next to “Very satisfied” and “Somewhat satisfied” in Evaluation 1 and Evaluation 2.

- Click the **Apply Filter** button to generate the updated report.

You can change the filter at any time in the **Filters** tab.

The screenshot shows the top right corner of the report interface. A blue 'Run Report' button is at the top right. Below it, there are three tabs: 'DATE RANGE', 'SETTINGS', and 'FILTERS'. The 'FILTERS' tab is highlighted with a purple border. Below the tabs, there is a blue 'Apply Filter' button.

**TIP:** To find more on filtering, check out our Help Desk guide on the Filters feature.

## Running a Report with a Matrix Question

**Now, let's look at a report that contains a matrix question.** A matrix question is a series of questions combined in one table. We generated this report using the same steps from above: Selecting the evaluation, tool, and question for two data sets.

When we run this report, we see all answers in the first evaluation, and then all answers in the second evaluation.

Export

Date Collected	Year	Month	Response No	Organization	Location Type	Information Source
Number of Responses	Percentage (%)	Group Name	Evaluation	Tool	Question	Matrix Column
▼						
▼ Community Evaluation, Phase I				▼ Community Evaluation, Phase II		
▼ Resident Experience in the Community v1.0				▼ Resident Experience in the Community v1.0		
Question	Question Options	▼ 10. How likely would you say it is that people in your community would help out if the following occurred?				
		Very likely		Somewhat likely		Somewhat unlikely
		Number of Responses	Percentage (%)	Number of Responses	Percentage (%)	Number of Responses
▼ 10. How likely would you say it is that people in your community would help out if the following occurred?	I needed a ride somewhere	44	12%	30	20%	15
	A package was delivered when I was not at home and it needed to be accepted.	62	18%	21	14%	8
	I needed a favor, such as picking up mail or borrowing a tool.	68	19%	20	14%	7
	I needed someone to watch my home when I was away.	62	18%	24	16%	7
	An elderly neighbor needed someone to periodically check on him or her.	60	17%	29	20%	4
	A neighbor needed someone to take care of a child in an emergency.	58	16%	23	16%	9
		Very likely		Somewhat likely		Somewhat unlikely
		Number of Responses	Percentage (%)	Number of Responses	Percentage (%)	Number of Responses
		20	9%	36	19%	21
		39	17%	35	19%	10
		49	21%	26	14%	9
		45	19%	26	14%	9
		36	16%	38	20%	9
		43	19%	28	15%	9

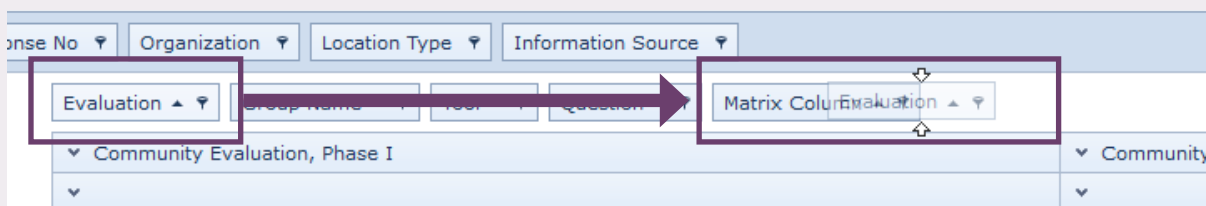

**You might want to rearrange the order of the column headings to change how the data is displayed.**

Instead of first seeing answers for the first evaluation and then the answers for the second evaluation, you might want to easily compare responses between the two evaluations. In this example, you might want to see those who responded “Very likely” in the first evaluation next to those who responded “Very likely” in the second evaluation.

		Community Evaluation, Phase I				Community Evaluation, Phase II			
		Resident Experience in the Community v1.0				Resident Experience in the Community v1.0			
		10. How likely would you say it is that people in your community would help out if the following occurred?				10. How likely would you say it is that people in your community would help out if the following occurred?			
		Very likely		Somewhat likely		Somewhat unlikely		Very unlikely	
		Number of Responses	Percentage (%)	Number of Responses	Percentage (%)	Number of Responses	Percentage (%)	Number of Responses	Percentage (%)
10. How likely would you say it is that people in your community would help out if the following occurred?	I needed a ride somewhere	44	12%	30	20%	15	30%	9	21%
	A package was delivered when I was not at home and it needed to be accepted.	62	18%	21	14%	8	16%	8	19%
	I needed a favor, such as picking up mail or borrowing a tool.	68	19%	20	14%	7	14%	5	12%
	I needed someone to watch my home when I was away.	62	18%	24	16%	7	14%	7	17%
	An elderly neighbor needed someone to periodically check on him or her.	60	17%	29	20%	4	8%	5	12%
	A neighbor needed someone to take care of a child in an emergency.	58	16%	23	16%	9	18%	8	19%
		Very likely		Somewhat likely		Somewhat unlikely		Very unlikely	
		Number of Responses	Percentage (%)	Number of Responses	Percentage (%)	Number of Responses	Percentage (%)	Number of Responses	Percentage (%)
10. How likely would you say it is that people in your community would help out if the following occurred?	I needed a ride somewhere	20	9%	36	19%	21	31%	9	24%
	A package was delivered when I was not at home and it needed to be accepted.	39	17%	35	19%	10	15%	5	14%
	I needed a favor, such as picking up mail or borrowing a tool.	49	21%	26	14%	9	13%	4	11%
	I needed someone to watch my home when I was away.	45	19%	26	14%	9	13%	8	22%
	An elderly neighbor needed someone to periodically check on him or her.	36	16%	38	20%	9	13%	4	11%
	A neighbor needed someone to take care of a child in an emergency.	43	19%	28	15%	9	13%	7	19%

**To see that, we need to rearrange the column headings.** The default order for displaying data is Evaluation, Tool, Question, Matrix Column. For this example, we want the evaluation to be the last way we sort the data, so we will move Evaluation to the end of the order.

- Click the **Evaluation** box and drag it to the right of the **Matrix Column**.
- Look for the white arrows to show you where the Evaluation box will land, and release the Evaluation box.

**Now, you can more easily see the percentage and frequency for each answer option.**

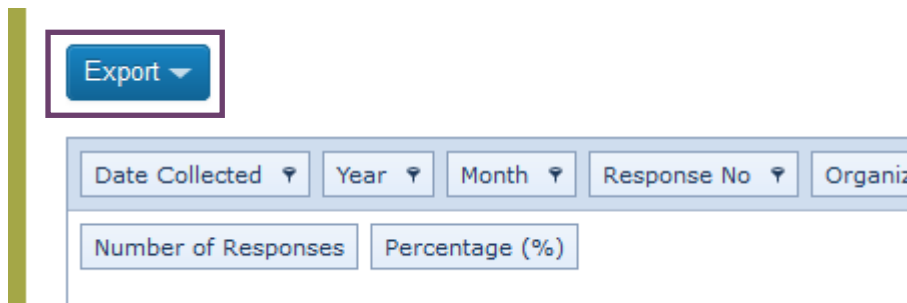

In this example, you see those who responded “Very likely” in Evaluation 1 compared with Evaluation 2, etc.

Question		Question Options				
10. How likely would you say it is that people in your community would help out if the following occurred?		10. How likely would you say it is that people in your community would help out if the following occurred?				
		Very likely				
		Community Evaluation, Phase I		Community Evaluation, Phase II		Community Phase III
		Number of Responses	Percentage (%)	Number of Responses	Percentage (%)	Number of Responses
		44	12%	20	9%	30
		62	18%	39	17%	21
		68	19%	49	21%	20
		62	18%	45	19%	24
		60	17%	36	16%	29
		58	16%	43	19%	23

## Exporting your Report

Further analysis can be done in Excel.

- Click the **Export** button.
- Click **Excel**.
- **Save** the report by exporting to Excel and saving to your computer.

**TIP: The data can also be exported in PDF or CSV format.**

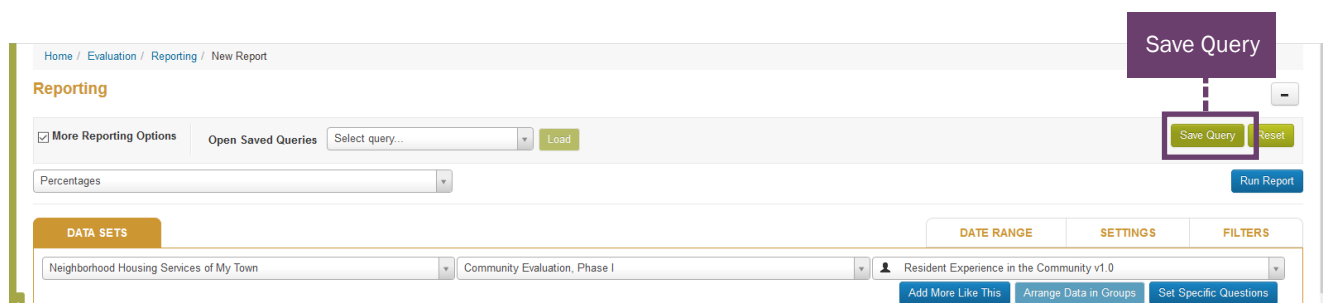

## Saving your query to run again at a later time

You may use the **Save Query** button at the top of the page to save your report if you want to run it again later.

To run a report in SMDS, you start by setting up your query: Selecting evaluations, tools, and questions to use in your report. A query can be saved in SMDS and run at a later time with up-to-date data.

Use the **Save Query** button at the top of the page to save your report at any time.

- Click the **Save Query** button.

The **Save Report Query** dialogue box will display.

**TIP: Name the query something clear and understandable** – In this instance, “Resident Survey Q3 and Q5 filter” would clearly explain what the query was about.

- Click the **Save** button.

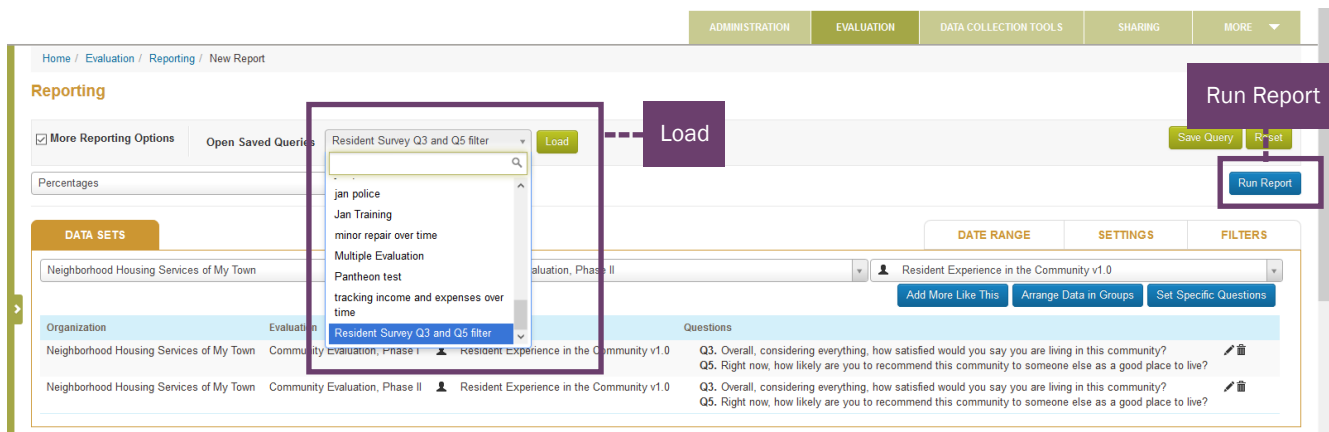

The image shows a 'Save Report Query' dialog box. At the top is a title bar with the text 'Save Report Query' and a close button (X). Below the title bar, there is a label 'Enter Name' with a dashed line pointing to a text input field. The input field is labeled 'Query Name : \*'. To the right of the input field is a 'Save' button. Below the input field and the 'Save' button are two more buttons: a green 'Save' button and a blue 'Cancel' button.

**NOTE: A saved query contains information from the Data Sets, Settings, Date Range, and Filter tabs.** It does not save the data generated from running the report. This allows you to run a report using the same parameters, with updated data.

The newly saved query will be listed in the drop down menu of the **Open Saved Queries** drop-down arrow.

You can run this same query at any time.

- You can select the saved query from the drop-down menu and click the **Load** button.
- Then click the **Run Report** button.

**NOTE: The report will be generated with up-to-date data from the SMDS system.**

All reports are generated with current data from the system.

A saved query can be changed at any time by selecting it and modifying the information saved in the tabs. Save again when ready.

Alternatively, if you make changes to a saved query you do not want to keep, use the Reset button to return to the original parameters.

## Need additional help?

- Click the **Help Desk** link at the top of the screen to find more guides on Customizing Tools and Question Formats. These guides are helpful resources as you work in the Tool Builder.
- If you have any questions or encounter any problems, please submit a help desk ticket.

The screenshot shows the SUCCESS MEASURES DATA SYSTEM interface. At the top, there is a navigation bar with the system name on the left and user information on the right. A 'Help Desk' link is highlighted with a red box. Below the navigation bar, there are tabs for 'ADMINISTRATION', 'EVALUATION', 'DATA COLLECTION TOOLS', 'SHARING', and 'MORE'. The 'DATA COLLECTION TOOLS' tab is selected. Below the tabs, there is a table of tools. The table has columns for 'Display Name', 'Questions', 'Status', 'Categories', 'Type', 'Languages', and 'Sharing'. The table lists several tools, including 'Accessibility and Perception of Amenities v2.0', 'Accessibility of Health Care Services v2.0', 'Accountability to Community v2.0', 'Alcohol, Tobacco, and Drug Use Behavior v1.0', 'Apartment Community and Neighborhood Change Module v1.0', and 'Apartment Community Facilities'.
